# The Rise of UpScrolled: A Haven for Antisemitism and Holocaust Denial

March 10, 2026

## The Rise of UpScrolled: A Haven for Antisemitism and Holocaust Denial

UpScrolled App is a social networking app founded and released in June 2025 by Issam Hijazi, a Palestinian-Jordanian-Australian technologist with the stated goal of offering a platform for “free expression”, without algorithmic shadowbanning or corporate agendas. It remained low-profile through most of 2025, but has seen a very sharp surge in activity and downloads following the recent ownership changes at TikTok, updated moderation policies, and hate-speech enforcement which now includes the terms like “Zionist” when used in negative contexts.

The Upscrolled app has been filled up immediately with extreme antisemitic content, including imagery of Hitler and posts promoting harmful conspiratorial claims about Jewish people. Dozens of accounts, dozens of posts in English and Arabic.

According to Upscrolled, the app was installed more than one million times over the past two months.

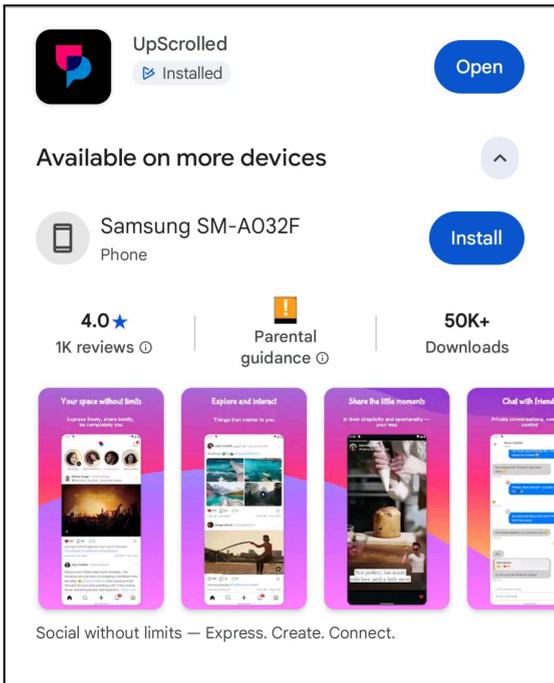

The following list of antisemitic posts was documented via screenshots taken on the app on February 24, 2026. The posts disseminate antisemitic conspiracy theories, glorify Hitler, call for the repetition of the Holocaust while also denying it, and prominently display swastikas and other Nazi symbols and slogans.

The Upscrolled App was taken from Google Play on the 14th of February 2026. Reinstated the next day. As for the publishing date of the report, it's available on both Apple Store and Google Play Store in most of the countries where they operate. Download <https://upscrolled.com/en/>

### User Base & Scope:

As of January 27, the app had been downloaded 140,000 times, including 75,000 installs in the United States. Notably, 41,000 of these downloads occurred within the preceding three days.

The number of active users has not been publicly disclosed, and it is therefore not possible to determine how many individuals are currently active on the platform. Similarly, there is insufficient data to estimate the number of users posting antisemitic content.

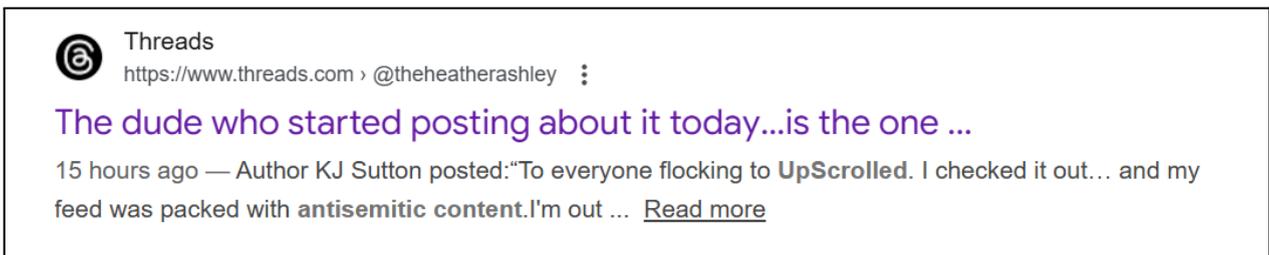

**Media Coverage:**

Most publications about UpScrolled focus on growth and user migration. They note discussions around moderation policies, including enforcement of community guidelines against hate, but do not talk about hateful antisemitic content already being spread rapidly.

The only article that highlighted the issue is found on [Cybernews](#) which states that “Within seconds of searching the hashtag #Jews, I found calls to kill “every single Jew,” Nazi-era caricatures and outright Holocaust denial”.

The author KJ Sutton has posted on Threads that she encountered a lot fo antisemitic content on the App as well, but her post was later deleted. “To everyone flocking to UpScrolled. I checked it out... and my feed was packed with antisemitic content. I'm out. Please be careful.”

**Historical Context & Precedents:**

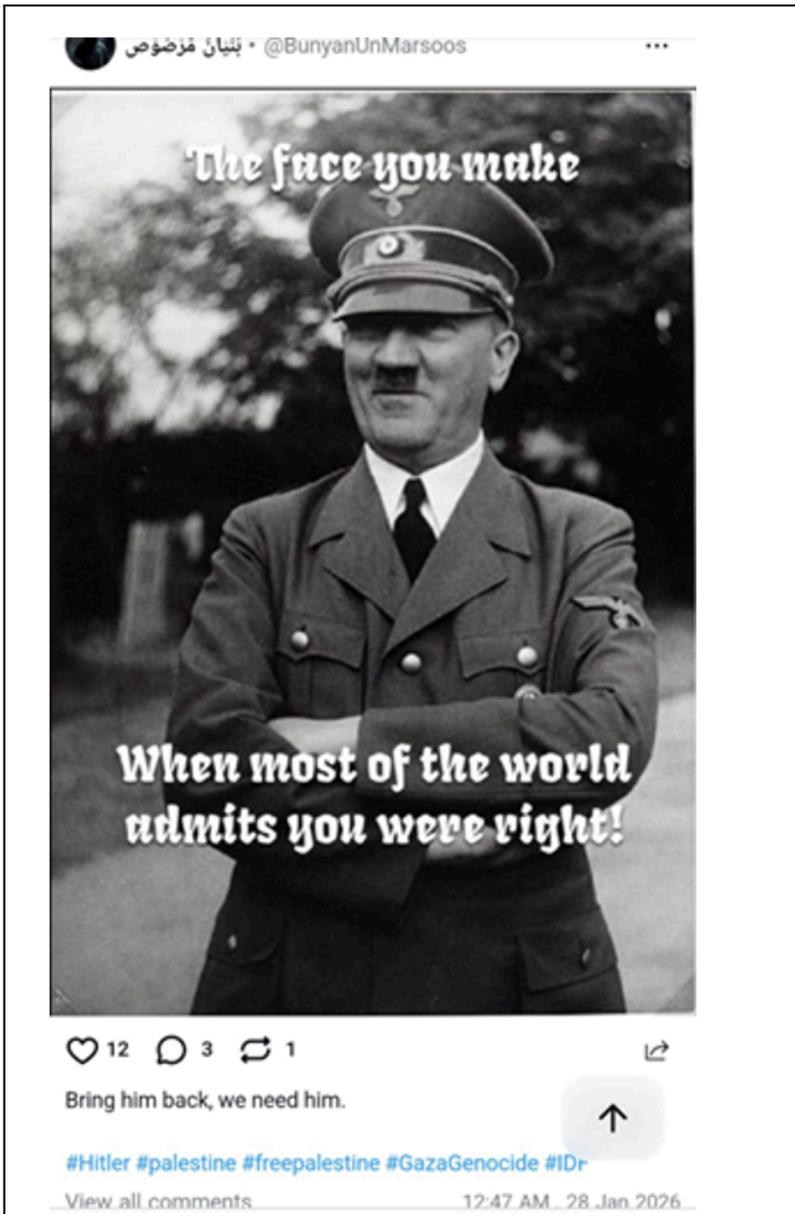

There have not been previous periods of high activity or past references to this App. Google has not addressed or made statements regarding this specific platform in the past.

**Content Evidence:**

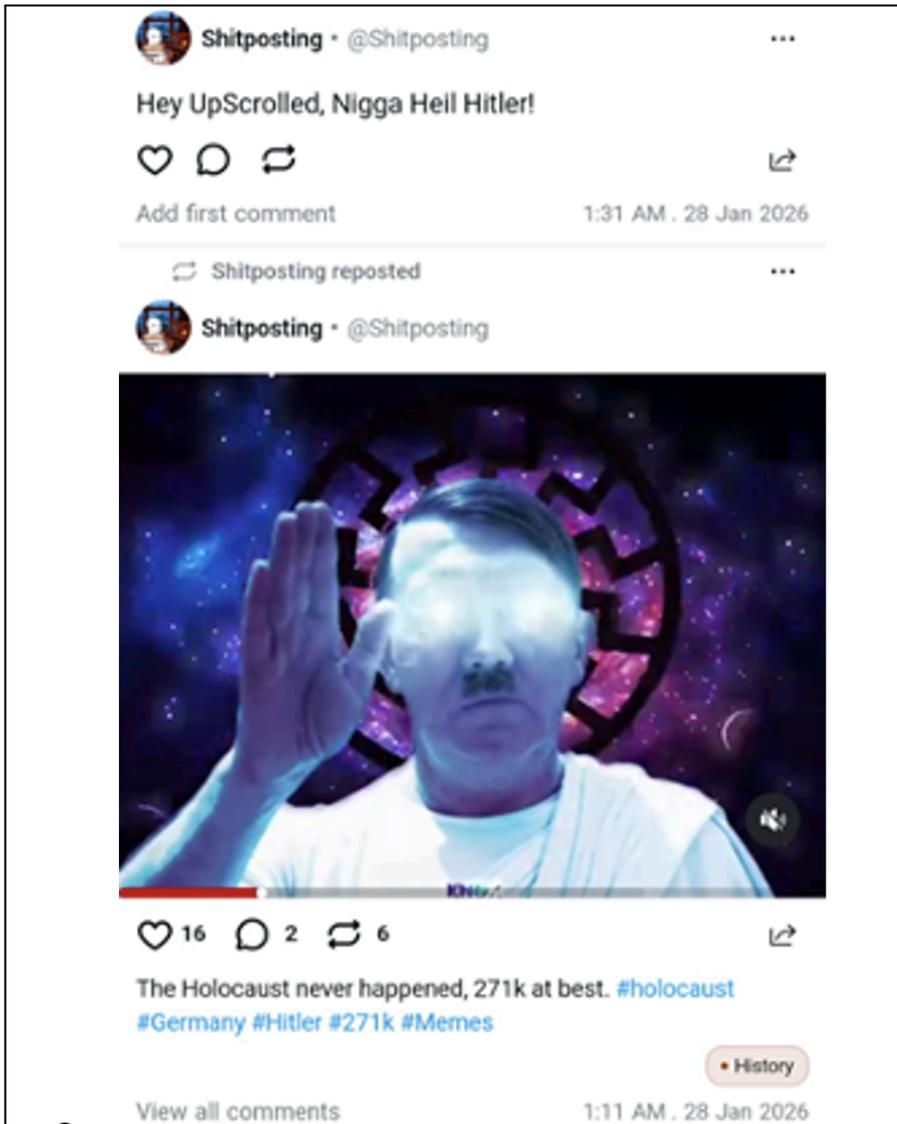

<https://share.upscrolled.com/en/post/04e79f10-fb71-11f0-8080-80016b8dddbb/>

*The post shows swastika, glorifies Hitler and supports the Holocaust.*

<https://share.upscrolled.com/en/post/c8745e80-fbb4-11f0-8080-8000064dff30>

*The post glorifies Hitler and his actions.*

<https://share.upscrolled.com/en/post/fb45f480-fbba-11f0-8080-80004b75207f/>

<https://share.upscrolled.com/en/post/312f8f00-fbb8-11f0-8080-80001e9b4fd2/>

*The posts glorify Hitler and deny the scale of the Holocaust.*

<https://share.upscrolled.com/en/post/bde43e90-ff1a-11f0-8080-800056ccc411/>

The video denies the Holocaust and calls it Jewish propaganda.

<https://share.upscrolled.com/en/post/10958150-08f1-11f1-8080-80015139cf04>

*The post sarcastically suggests that Jews are selling organs.*

GM! It is our duty once we found out the truth about red demons, to do everything in our power in order to protect our children and future of humanity, specially when we saw what these satan spawns are willing to do. Study what #Jews actually did to #Germany and you will see history repeats, only this time jewish propaganda wont work, and they wont succeed in uniting half of the world against pure souls using their news and tv lies, and #UpScrolled is proof that jewish lies are becoming history! Humanity united against evil!

## Platform Functionality & Reporting

There is a “Report” action button and it is possible to report “hate speech”. The platform also claims that the app will remain impartial to political agendas.

## Policy Compliance:

UpScrolled’s own Community Guidelines state that hateful, violent, and harassment content is prohibited and that users should report violations for review by moderators. **In reality it doesn’t happen. UpScrolled hosts and facilitates user posts advocating violence against Jewish people, Nazi imagery, praise for Hitler in a celebratory context, hateful and discriminatory language toward Jewish people.**

**It violates both Google and Apple policies.**

The App violates Google [Developer Programme Policy](#) Hate Speech clause as Google “doesn’t allow apps that promote violence or incite hatred against individuals or groups based on race or ethnic origin, religion ... nationality”.

The App doesn’t follow Apple Store [App Review Guidelines](#). Specifically the clause 1.1 Objectionable Content as “apps should not include content that is offensive, insensitive, upsetting”, particularly “defamatory, discriminatory, or mean-spirited content, including references or commentary about religion, race, sexual orientation, gender, national/ethnic origin” (clause 1.1.1). As per clause 1.1.2 Apple also prohibits content that encourages violence.

**Conclusion: The app can be reported, and there is substantial evidence indicating that it violates developer policies.**
