

Fighting Online Antisemitism: Rise in Antisemitism on Social Media

September 2021

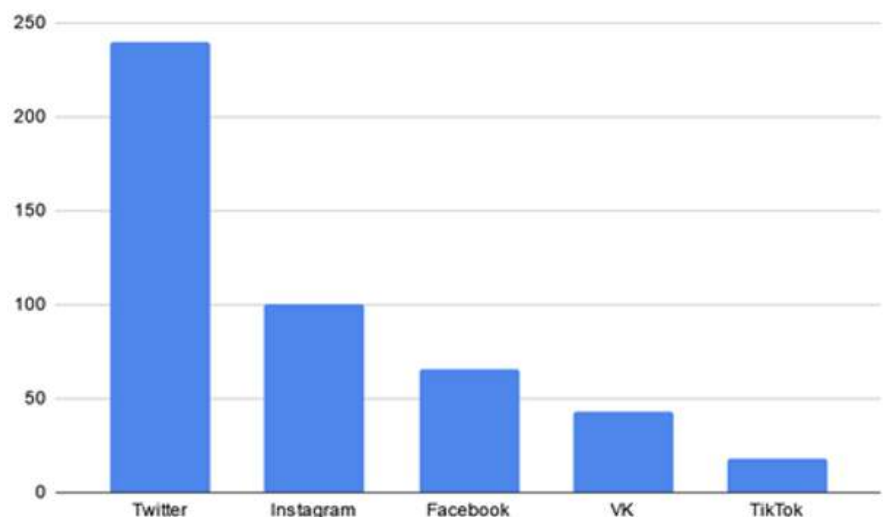

Published: October, 2021

Introduction

Every 90 minutes during the past month (September 2021), antisemitic content was reported on social media, according to a survey conducted by Fighting Online Antisemitism (FOA). Dozens of FOA volunteers in Israel and worldwide monitored about 500 antisemitic items in September, a significant increase compared with previous months. Many of the reported posts deal with conspiracy theories related to Jews and Coronavirus, blaming the Jews for spreading the pandemic and trying to take over the world through vaccines. Such conspiracy theories started to emerge with the outbreak of the pandemic. They are still gaining popularity among antisemites, Nazis, and anti-vaxxers. Alongside these conspiracy theories, this month, conspiracy theories relating to 9/11 and anti-vaccines were also circulated on social media.

The phenomenon of vaccine opponents in Europe requires special attention. In the past year, opposition to Covid vaccines in Europe increased. As part of this protest, activists of the anti-vaccination movement compared the sanctions and negative treatment of covid anti-vaxxers nowadays and the sanctions and negative treatment of European Jews during World War II. Content posted by anti-vaxxers on social media includes references to the Holocaust, such as yellow badges, crematoria, images from the Holocaust, and other elements that distort the memory of the Holocaust and harm the survivors. It should be noted that, at times, such content is not directed against Jews but is targeting local governments (e.g., France). Yet, images and symbols from the Holocaust are cynically used, desegregating the memory of Holocaust victims. Additionally, such content may encourage a wave of antisemitic reactions on the social network.

In September, roughly 500 antisemitic posts were monitored in various languages: about 75% in English, about 12% in Russian, about 10% in Spanish, and in French, Arabic, Chinese, Persian, Italian, and Portuguese. The content was monitored on five leading social media platforms: Twitter (about 250), Instagram (100), Facebook (70), VKontakte (45) and Tiktok (20). So far, 12% of the reported content was removed by the social media platforms.

It is claimed that Jews are responsible for spreading the Coronavirus and for producing the vaccine for the virus. The post uses a yellow badge.

Science: (((Moderna CEO))) Announces Permanent Vaccination System with Many Mandatory "App-like" Updates

This time it's good. Everything will be fine in a year. There are, however, a few small conditions.

The jew flu pandemic hoax has been the rhythm of a good part of the daily life of Goyim since the beginning of 2020.

A filthy rat-faced Kike Stéphane Bancel, the French boss of Moderna, which manufactures one of the vaccines against the Goyim, expects an end of the pandemic in 2022. In an interview with the Swiss most Kikish daily Neue Zürcher Zeitung, he believes that "there will be enough doses for vaccinate everyone on the planet "by the middle of next year.

He also insisted on the need for deadly booster doses for stupid obedient Goyim.

Bancel draws a parallel with the annual versions of smartphones and their software. The enemy male explains that "each year, we want to add more viruses as we add an application to an iPhone". The vaccine would become a "multi-application product with annual updates".

For him, the combined vaccines, which will offer protection against several viruses including non-existent "covid" will be on the market in 2023.

These tweets present a conspiracy theory, according to which Israel, the Jews, and the Israeli Mossad are behind the 9/11 attacks.

The Jews did 911. ❖ Classic Mossad Operation - Do the evil deed and blame it on others.

Spread this flyer around! Print them & throw them up all over your city! Israel did 9/11 & now (((they))) did Covid. It's time to deal with (((them))). Henry Ford called (((them))) the world's foremost problem! He was right! #NeverForget #September11 #israeldid911 #Remember911

Never forget.....the CIA, Mossad, Israel, communist Jews did 9/11! That is what America needs to remember!

This post argues that Jews are behind the Covid vaccine, which is actually a deadly substance meant to exterminate non-Jews. Additionally, the post states that Emmanuel Macron, the President of France, is also involved in the plot.

Let French Kikes Kill Moronic Shitskin Doctors with "Vaccines"
 Lebanon: Nearly 40% of Aborigin Shitskin Savage Doctors and 30% of Nurses Left Their Rat Shithole Country to Replace Aryan Healthcare Workers Fired by (((Macron))) for Refusal of Deadly Jewish Vaccination

When (((Macron))) went to Lebanon, or what's left of it by Jews, it wasn't just to enjoy the foul air of yet another Eastern rat hole.

There was another dimension: making the Great Replacement useful and profitable for (((sanitary tyranny))).

At the end of their visit to Beirut, Kikish officials (((World Health Organization))) denounced Sunday the exodus of shitskin medical personnel which is taking place in Lebanon in the midst of collapse, deploring the that nearly 40% of brown ape doctors and nearly 30% of nurses have already left the shithole country permanently or temporarily.

What's happening ?

Let's take a look at the Elsan group, a network of (((private hospitals))).

The Kikes must replace the staff fired by Jews Macron and V éran for refusal of vaccination, if possible with brown apes imported from all over the world, just to kill two birds with one stone.

Thank you to the Sephardic Jew Thierry Chiche, CEO of Elsan, for this quick reaction.

If there is no more money to treat French Goyim or if they are refused entry to (((hospitals))), all hospitals belong to Kikes, Goyim know that it is not lost on everyon

The narbonoid project is progressing as planned.

And beware of the goyim if they flinch!

The fight against 'racism and anti-Semitism' is at stake, in short, the survival of Semitic parasitism.

Meanwhile, the (((public prosecutor))) requires a 3-month suspended prison sentence and 3 years of ineligibility against a Jewish anti-Coronist female dissident, Cassandre Fristot, for naming the Jew Rothschild as the main Coronist criminal. The judgment will be rendered on October 20.

The author of this post argues that the Coronavirus is spread by Jews and mentions Ginzburg, the director of a Jewish institute where the Russian vaccine was developed.

Next, it is argued that to this day, no one has been able to isolate a virus from the SARS-COVID family, and thus the covid-19 pandemic is fake. This, according to the post, is the way of global Zionism.

French anti-vaxxers utilized the yellow badge to denote their social isolation, comparing the French government to the Nazi regime. On the yellow badge 'Unvaccinated' is written.
